ACKNOWLEDGEMENT

The first, we would like to express my special thanks of gratitude to my teacher **Miss Ifrah**, who helped us a lot in finalizing this project within the limited time frame, valuable counselling and assistance for the accomplishment of this project.

Secondly, we would also like to thank the eProject team at Aptech Head Office, who gave us the golden opportunity to do this wonderful project about Beauty care.

Thirdly, we also thank the eProject team, some of the benefits are as under:

- Re-enforcement of skills happens in the experiential learning process.
- A mentor, ensuring that we do not get drifted, constantly guides us.
- It gives us a lot of confidence to face an interview as we have worked on a project. We can explain virtually everything on the subject we have learnt.

SYNOPSIS

Liberty electronics is a renowned brand known for its cutting-edge electronic devices.

From smartphones washing machines and laptops to refrigerators and ovens.

They offer a wide range high-quality products. Liberty electronics is committed to.

Providing customers with the latest technology, sleek design, and exceptional.

They have established themselves as a trusted name in the market.

PROBLEM DEFINITION

Beauty products is into business of manufacturing and selling cosmetics items. They have been advertising about their makeup, facewashes, hair oils, hair serums, and etc. and facewash and oils through newspapers, pamphlets, television. Now with changing times, they have decided to go online as customers today use Internet extensively. They have planned for a website with complete details about their makeups and other beauty items So, we solved many particular queries as followed:

- How the map helps our customers?
- What information should be displayed on each page?
- How to give users the best experience when using the website?
- How to let the website properly functioning along with the system requirement?
- Will the user be able to contact with beauty care company for advice?

CUSTOMER REQUIREMENT SPECIFICATION (CRS)

Liberty Electronics is a shop selling various electronic products. The company advertises by distributing the pamphlets, advertising on television and so on. Due to rapid development in internet field, the company decides to launch a website where people will get all the information about the various products available with them easily.

Requirement Specification:

The Web site is to be created based on the following requirements.

- 1) The Home Page should be created making use of sections with a suitable logo
- 2) The site should display a menu which will contain the options for brief introduction about the various products available, location of the shop and any other information if required.
- 3) The information should be categorized according to the brand names of the products like if a User wants to see only Samsung products then he click on a Link/button/menu etc and he will see only That Brand products.
- 4) When a user selects any particular brand, a list of products for that brand will be displayed

eProject: LIBERTY ELECTRONICS

5) A brief summary of features of individual products should be displayed on the

Web Page along with the product but detailed Features should be stored in

Individual Word documents which can be downloaded or viewed by the User

who wishes to see the same.

6) The user should also be able to compare the various products of different as

well as similar brands.

7) There should be a “Contact Us” page which will have the Address of the

Company which is as follows and the mail address which when clicked will

invoke the local mail client from where they can send an email.

SCOPE OF THE WORK (IN BRIEF)
